

Grata

Seating Comfort

Light, spirited design and functionality for a new kind of comfort

Grata—

Multipurpose for comfort in multiple office scenes.

Workspaces

Comfort

The newly developed flexible grid back will cuddle your back, following your every movement as you move. The ankle tilt reclining mechanism enables the seat to follow with the tilting back smoothly - which allows you to sit for hours without getting fatigued.

Meeting Spaces

Mobility

Grata doesn't just look light and spirited, it can move that way, too - for quick and easy arranging or stowing, as the place, occasion, and number of people call for. There's no need to lift it up. The flip-up nestability brings efficient, optimum use of the space you have availability. The Grata series bring new spirit into the office!

Multipurpose

Grata is designed for use in a multitude of situations for a multitude of purposes, helping to bring to life the active office style you want.

01

Brainstorming

It is ideal for brainstorming spaces where people needs at once concentrate and relax, that is indispensable for knowledge workers who are expected to bring a free-thinking mind to creative processes.

03

Conference

Precise yet organic design results in the creation of an attractive space simply by setting out the chairs in an orderly row. The superb fit of the flexible shell promises comfort throughout in-depth meetings.

02

Quick meetings

It quickly transforms the area around your desk into a creative space conducive to sharing ideas, experiences, and knowledge.

04

Training sessions

It's so comfortable, that it helps make even the longest training sessions pleasant.

Multifunctional

Thanks to its sophisticated ergonomic functions, Grata is ready to fit all kinds of people with all kinds of needs. With comfort that embraces the occupant and a light and spirited yet highly refined design, it helps to create a whole new office space.

Seat Height Adjustment

With a seat stroke of 92mm, the seat can be optimally adjusted to the perfect height.

Ankle Tilt Reclining

The ankle tilt reclining mechanism enables the seat to follow with the tilting back smoothly - which allows you to sit for hours without getting fatigued. It can also be locked into its default position.

Flexible Grid Back

The fine, mesh-like slits allow the backrest to fit the user's body closely and flex as they move.

Tablet

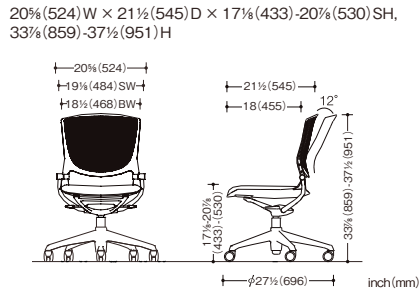

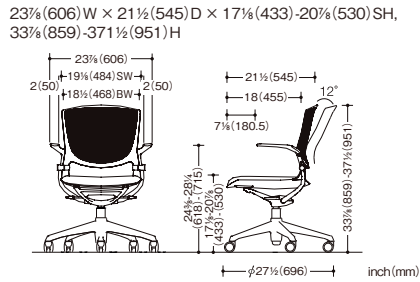

Useful in spaces without tables or desks. The light tray causes no hindrance even when folded away.

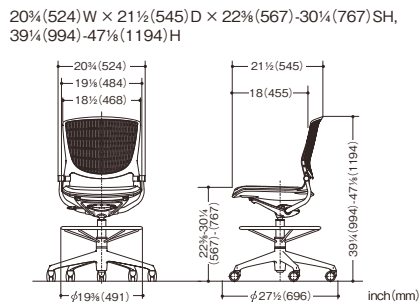

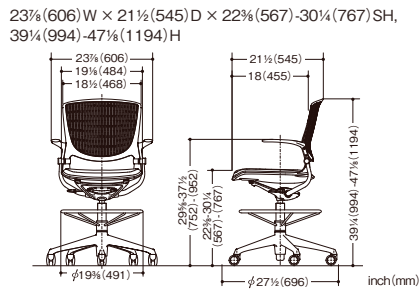

Nestable

As Grata is nestable, it can be set up and stored away in an instant as needed.
Space required for nested storage:
W: 23³/₈ (597) (w/o armrests) / 23⁷/₈ (606) (w/armrests)
D: 24³/₈ (626) + (number of chairs - 1) × 6 (150)
inch (mm)
