**B10**  
series

## Outstanding Performer at Workplace, B10

The most advanced synchronized tilting mechanism of B10

realizes the ergonomic ideal of chair synchronizing with user's body in motion.

Maximum adjustability with easy handlings of the smartly designed levers completes the highest performance of B10.

### STANDARD COLOR & FINISHES

### STANDARD DIMENSION

**DETAIL & FUNCTION**

**1,2. Adjustable Headrest (Optional)**

The headrest is height adjustable, especially, it helps the user's head maintain comfortable position all the time by natural reaction when tilted.

**3,4. Adjustable Armrest**

The armrest is height adjustable depending on user's preference, and it also offers additional forward/backward, left/right and angle adjustment.

**5,6. Adjustable Lumbar Support**

The lumbar support is height and depth adjustable.

**7. Highly Elastic Soft Mesh**

K10M chose highly elastic soft mesh for both backrest and seat to provide customized comfort.

**8. Adjustable Seat**

The depth of seat is adjustable up to 60mm depending on the user's preference.
