## Simple Is the Best, B20

B20 is a smart task chair engineered to provide the most comfortable support for every user, as well as offering simplicity and complete ease of use. Minimal adjustments provide ease of use for improved user comfort.

### B20 MESH BACKREST

K20 with tightly elastic mesh always gives you a comfortable feeling of seating.

### B20 PADDING BACKREST

Padding back type supplies you more comfortable and cozier feeling of seating.

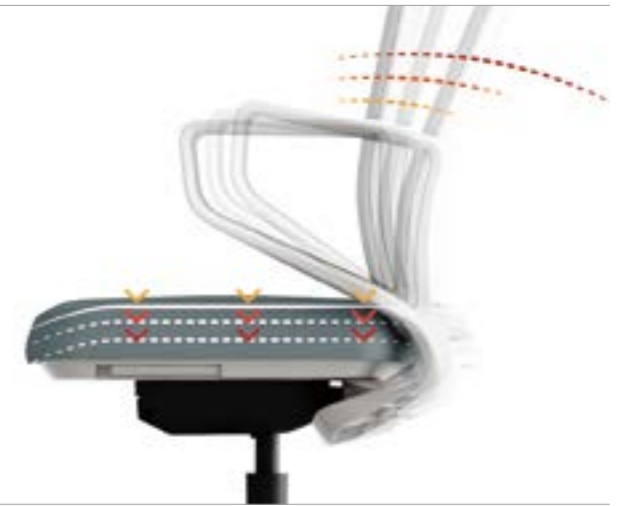

## DETAIL & FUNCTION

### Weight Balance Tilt

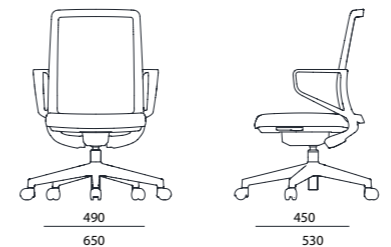

Without any separate adjustments, K20 feels the weight of each sitter, and control the tension of tilting.

### Hidden Lever

Adjusting levers are hidden in each side of the seat aiming for the apparent simplicity.
